**Re: Submittal of 100-DR-1 Operable Unit Work Plan Review**

Dear Mr. Goodenough:

The Department of Ecology has just finalized a schedule with its prime contractor for submittal of comments on the RFI/CMS Work Plan for the 100-DR-1 Operable Unit. This schedule will result in Ecology transmitting comments on this work plan to USDOE no later than April 24, 1990.

In order to take advantage of recent, productive discussions among the parties concerning work plan preparation, integration and investigative approach, the 100-DR-1 Work Plan will be reviewed in light of these discussions and the documents addressing these issues. These documents include: the USDOE "Lessons Learned" paper (January 8, 1990); Ecology's response to this paper (February 13, 1990); Ecology's "Position Paper on Operable Unit Work Plan Integration" (January 17, 1990); and USDOE's generally supportive response paper (untitled) transmitted to Ecology and EPA at the General Topics Meeting held February 15, 1990.

Mr. James D. Goodenough

Page 2

It is understood that the 100-DR-1 Work Plan was prepared prior to most of this recent information being available. In addition, some issues raised in the documents listed above are not fully resolved. However, Ecology will endeavor to provide recommendations to incorporate as much guidance as possible to assure this work plan is consistent with the general approach agreed to by the parties.

Sincerely,

Larry Goldstein  
Operable Unit Manager  
Hanford Project
